

Dear Vicky

I note your comments about buses and only wish we could improve our service to Amberley. However as you are probably aware the bus service is subsidised by WSCC since it is not commercially viable and any additional services would require further funding. Unfortunately there is no additional funding available from WSCC – however it would always be open to Amberley Parish Council to fund additional buses if it wished to. This does in fact happen in some areas where several parishes work together to fund an additional bus.

Regards
Chris
