

CORE OBJECTIVES OF THE PLAN

Environment and Sustainability

- To conserve and enhance the landscape character and open views of the Parish.
- To maintain, protect and enhance local green spaces.
- To maintain, protect and enhance biodiversity and wildlife havens/corridors.
- To conserve and enhance the heritage environment.
- To conserve the 'dark sky' status of the Parish.

Housing and Design

- To identify possible sites for new homes within the Parish
- To support a mix of dwelling types particularly dwellings for young families, including affordable homes for people with an existing and proven local connection.
- To ensure that all new building complies with the design principles contained in an updated version of PADS.

Business and Tourism

- To support improved broadband and mobile telephone services.
- To support the retention, development and sustainable growth of new and existing businesses.
- To support the sustainable development of tourism and related activities.

Community Facilities

- To protect, enhance and seek opportunities to create new Parish facilities - eg
 - Care services for the elderly.
 - Land for new allotments/orchards/vineyards
 - A new Community Centre
- To provide a car park with public toilets

Getting Around

- To maintain, protect and enhance public footpaths, open access land and bridleways.
- To improve pedestrian safety throughout the Parish
- To address parking issues throughout the Parish
